GLI SPECIALISTI DEL COLLAGENE

Collagendep®

Collagendep®

THE COLLAGEN SPECIALISTS SUPPORTING MEDICAL SCIENCE

Beauty is not just a matter of **aesthetics**. Beauty and health go hand in hand. Collagendep® stands by women to help them find true **well-being**.

More and more people who care about their **health and physical shape** are seeking **safe and effective solutions** to enhance their **appearance** and counteract the **signs of aging**.

To meet these needs, Collagendep® research has **conceived, designed, and developed** a line of MADE IN ITALY food supplements and cosmetics **to prevent and treat the loss of elasticity and firmness of the facial and body tissues**, as well as to amplify and prolong the benefits of medical and aesthetic treatments.

The Collagen Specialists did not stop at simply creating products capable of stimulating the synthesis of collagen and elastin. For each product, they have carefully selected **combinations of active ingredients** designed to maximize both effectiveness and tolerability of each formula, and they have developed **innovative packaging** to ensure the integrity and quality of the functional ingredients until the moment of use.

Lastly, they have developed **synergistic usage protocols, tailored to specific imperfections**, planned in terms of timing and application method to respect and align with the body's physiological responses, ensuring **proven, visible, and long-lasting results**.

WHAT IS COLLAGEN?

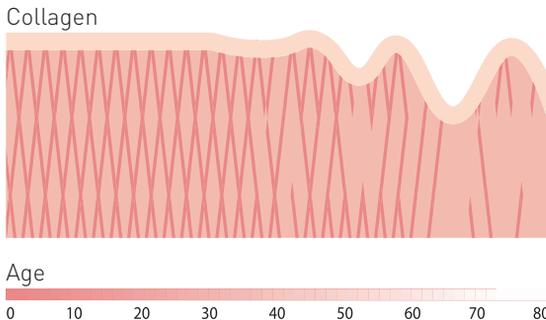

COLLAGEN IS ONE OF THE MOST IMPORTANT STRUCTURAL PROTEINS IN OUR BODY

It represents 30% of the body's total proteins, making it the most abundant protein in the human body.

It is primarily located in connective tissues such as the skin, bones, tendons, and cartilage, and plays a crucial role in maintaining their structure.

The natural aging process begins around the age of 35, when there is both a quantitative and qualitative modification in collagen synthesis. This process accelerates during menopause due to hormonal changes.

As a result, connective tissue loses **tone** and **elasticity**, leading to various signs and symptoms depending on the affected area of the body.

During the natural aging process, starting from the age of 35, collagen production by connective tissue cells decreases. This phenomenon becomes more pronounced during menopause.

VERISOL® INCREASES COLLAGEN CONCENTRATION IN CONNECTIVE TISSUE

The Collagendep® food supplements are formulated with Verisol®, which stimulates the body's natural production of **collagen** fibers through a fascinating biological mechanism.

What is Verisol®?

It is a patented blend of **specific hydrolyzed collagen peptides** that can positively influence the metabolism of endogenous collagen, enhancing tissue **hydration, elasticity, and firmness** tissue.

These **bovine-derived peptides**, sourced from **safe and certified origins***, are so biologically compatible with the human body that the cells responsible for producing collagen and other structural proteins mistake them for degraded collagen fragments naturally present in the body. In response to this "perceived loss," the connective tissue cells synthesize **new collagen and elastin, restoring tone, hydration, and elasticity** to the skin and underlying tissues.

**BSE e TSE free, Kosher e Halal certified*

Collagendep
BEAUTY COCKTAIL

ANTIAGING PROTOCOL BEAUTY COCKTAIL

The **Collagendep® Antiaging Protocol** for **face and body** offers an innovative solution to counteract the signs of skin aging. Thanks to **Verisol® hydrolyzed collagen peptides** and **antioxidants**, it stimulates the skin's natural collagen production, improves skin elasticity, and helps reduce the depth of wrinkles. The result is **firmer, brighter**, and more **compact skin**.

+60% collagen production
after just 1 month
of treatment

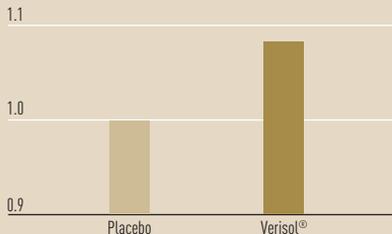

It reduces wrinkles
within 4 weeks, improves
firmness and elasticity

It enhances the results
of aesthetic and surgical
treatments

CLINICALLY PROVEN EFFECTIVENESS

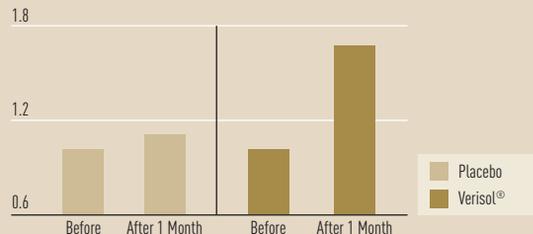

IT IMPROVES SKIN ELASTICITY

Skin elasticity after 1 month

Proksch E. *et al.*, August 2013.

IT REDUCES WRINKLE DEPTH

Pro-collagen accumulation after 1 month

Proksch E. *et al.*, December 2013.

AGING

COLLAGENDEP® BEAUTY COCKTAIL

20 DRINKABLE STICKS

LONG-LASTING BIOREVITALIZING SUPPLEMENTATION
THAT REDUCES WRINKLE VISIBILITY AND IMPROVES
SKIN ELASTICITY

It stimulates the natural production of collagen and revitalizes the skin for **long-lasting, visible results: firmer, more toned skin**. Thanks to the **restructuring, antioxidant, and moisturizing** action of its active ingredients, Collagendep® Beauty Cocktail reduces wrinkle depth and improves skin elasticity after just one month of treatment.

Also ideal for enhancing and prolonging the effects of aesthetic and surgical procedures.

RESTRUCTURING

VERISOL® HYDROLYZED COLLAGEN PEPTIDES stimulate the synthesis of collagen and elastin within the dermis.

ANTIOXIDANT

VITAMIN C, RESVERATROL, COPPER, ZINC, AND BIOTIN protect dermal cells and structural proteins from oxidative stress.

MOISTURIZING

Thanks to high molecular weight **HYALURONIC ACID**.

Allergen and colorant free.
Gluten-free.
Naturally lactose-free.
Hypoallergenic
pineapple flavour.

**1 DRINKABLE
STICK
CONTAINS:**

Verisol® Hydrolyzed Collagen Peptides 2.5 g
Vitamin C 80 mg
Hyaluronic Acid 50 mg
Resveratrol 5 mg

Zinc 5 mg
Copper 0.5 mg
Biotin 50 µg

**HOW
TO TAKE IT**

1 drinkable stick a day, taken in cycles. One cycle of Collagendep® Beauty Cocktail consists of 40 days of treatment, followed by 30 days of break, and then another 40 days of treatment.

1 CYCLE OF COLLAGENDEP®

40 DAYS

1 DRINKABLE STICK A DAY

30 DAYS

BREAK

40 DAYS

1 DRINKABLE STICK A DAY

**WHEN
TO TAKE IT**

It is recommended to take 2 cycles of Collagendep® Beauty Cocktail between autumn and spring. During the summer months, it is ideal to replace it with Collagendep® Sun, in which the quantitative ratio between collagen peptides and antioxidants is reversed in favor of the latter, to help prevent oxidative damage caused by sun exposure.

INTIMATE PROTOCOL

PINK BEAUTY

The **Collagendep® Intimate Protocol** improves the quality of genitourinary tissues, helping counteract **loss of elasticity, dryness, and pain during intercourse**, common in several conditions such as **menopause, genital lichen, endometriosis, adenomyosis, pelvic floor dysfunctions, and postpartum recovery (both vaginal or cesarean)**. It can be used alone or in combination with pharmacological and/or physical therapies.

For dryness, intimate itching, and pain during intercourse

Restructuring, elasticizing, and moisturizing action on the vaginal and urethral mucosa and the pelvic floor

Can be taken **at any time of day**

CLINICALLY PROVEN EFFECTIVENESS

on Genitourinary Syndrome of Menopause

Collagendep® Pink Beauty can be taken on its own or in combination with other pharmacological or physical treatments, such as fractional laser or vulvovaginal radiofrequency.

+100%

Improvement in vaginal health*

-55%

Reduction in symptoms**
such as: vaginal dryness, irritation, burning, itching, pain/difficulty during urination, pain/bleeding during intercourse

+26%

Increase in sexual function*

***Impact of vaginal carbon dioxide (CO₂) laser therapy alone versus its combination with oral bioactive collagen peptides, ultra-low molecular weight hyaluronic acid and other functional components on genitourinary syndrome of menopause: a cohort pilot study in Italy." [In press]*

***"Oral Collagen Peptides and Vulvovaginal Radiofrequency Therapy for Genitourinary Syndrome of Menopause: A Pilot Randomized Study." [Tafari et. al., 2025]*

COLLAGENDEP® PINK BEAUTY

20 DRINKABLE STICKS

FUNCTIONAL SYSTEMIC SUPPLEMENT FOR THE RECOVERY OF FEMALE UROGENITAL TROPHISM

A food supplement designed to support the health and well-being of female intimate tissues. It helps maintain **elasticity, hydration, and tone** in **genitourinary tissues**, including **vaginal, urethral and perineal areas, by stimulating the natural production of collagen**. It is particularly useful in cases of tissue thinning or loss of strength, even when associated with **intimate, urinary, or sexual discomfort**, and can be used on its own or in combination with pharmacological and/or physical therapies.

RESTORING ACTION

VERISOL®, ASTRION™, AND HYASOURCE® VITA MINI stimulate the overall extracellular matrix synthesis in genitourinary tissues. **RIBOCARE®** nucleotides play an important restorative and tissue-repairing role.

ELASTICIZING ACTION

VERISOL®, ASTRION™, AND HYASOURCE® VITA MINI stimulate the synthesis of collagen and elastin.

MOISTURIZING ACTION

HYASOURCE® VITA MINI provides hydrating action to help maintain the structure, plasticity, and firmness of the vaginal mucosa. **ASTRION™** stimulates hyaluronic acid synthesis.

Allergen and colorant free.
Gluten-free.
Naturally lactose-free.
Hypoallergenic
pineapple flavour.

**1 DRINKABLE
STICK
CONTAINS:**

Hydrolyzed collagen peptides Verisol® 2.5 g
Astrion™, blend of astragalus and gotu kola extracts 250 mg
Ribocare®, nucleotides 100 mg
Hyasource® Vita Mini, ultra-low molecular weight hyaluronic acid 75 mg

**HOW
TO TAKE IT**

1 drinkable stick a day, cyclically. One cycle of Collagendep® Pink Beauty consists of 4 months of treatment followed by a 4-month break, and then another 4 months of treatment.

**WHEN
TO TAKE IT**

At any time of the day and during any season of the year. The duration and frequency of its intake can be adjusted depending on the individual's health condition at the start of the treatment and the results one wishes to achieve.

BODY WEIGHT AND METABOLIC HEALTH

COLLAGENDEP® SHAPE RESET

30 SACHETS

TOTAL BODY TREATMENT TO REDUCE BODY WEIGHT
AND RESHAPE THE SILHOUETTE

It supports **weight loss** and improves body composition by reducing visceral fat, preserving lean mass, and **increasing basal metabolism**.

It helps **reduce waist and hip circumference** with visible results after just 2 weeks of treatment.

It regulates blood sugar levels and **limits the formation of AGEs** (advanced glycation end products), which are responsible for the loss of tissue elasticity.

It also helps control both emotional and **physical hunger**, improving one's relationship with food.

It is ideal when combined with a healthy lifestyle to enhance the effects of diet and exercise.

LIPOLYTIC AND RESHAPING

SLENDACOR®, **REDUCOSE®**,
and **CHROMIUM** promote
weight loss and help reshape
waist and hips.

METABOLIC REGULATOR

SLENDACOR®, **REDUCOSE®**,
and **CHROMIUM** act on the
metabolism of carbohydrates
and fats, counteracting insulin
resistance and supporting
metabolic balance.

ANTI-STRESS

RHODIOLA reduces emo-
tional eating and helps de-
crease the impact of stress
on eating behavior.

Allergen, colorant
and preservative free.
No added sugars.
Naturally lactose-free.
Hypoallergenic peach flavour.

1 SACHET CONTAINS:

Slendacor® 450 mg
Rhodiola 300 mg
Reducose® 250 mg
Chromium picolinate 100 mcg

HOW TO TAKE IT

Take 1 sachet during the main meals, 2 times a day, for 4 consecutive months.

Pour the content of the sachet into a glass of water (150 ml), stir well, and consume during the meal.

It is important that the solution reaches the intestines along with food.

4 MONTHS 2 SACHETS A DAY

LUNCH

DINNER

WHEN TO TAKE IT

It can be taken at any time of the year. The duration and frequency of treatment can be adjusted based on individual needs, initial health status, and desired goals. It is ideal to combine it with a balanced diet and regular physical activity, even moderate (like daily walks), to maximize results.

ANTI-CELLULITE PROTOCOL

SMART CELL

The **Collagendep® Smart Cell anti-cellulite protocol** is an **innovative and effective solution** for reducing cellulite imperfections and visibly improving the skin's appearance. Through two consecutive phases - **draining and lipolytic/reshaping** - it promotes the elimination of excess fluids and reshapes the silhouette, leaving a **smoother, firmer and more even skin**.

**Draining, lipolytic,
and reshaping action**

CELLULITE

ANTI-CELLULITE PROTOCOL SMART CELL

A COMPLETE PROGRAM IN TWO CONSECUTIVE STEPS
TO COUNTERACT CELLULITE IMPERFECTIONS IN DEPTH

STEP 1 DRAINING

Duration

24 consecutive days.

Dosage

1 Drink Cap of Collagendep® Dren a day

Action

Draining, anti-edematous, vasotonic.

Benefits

It promotes the elimination of excess fluids and prepares the tissues for the next phase.

STEP 2 RESHAPING

Duration

48 consecutive days.

Dosage

1 Drink Cap of Collagendep® Cell a day.

Action

Lipolytic, anti-fibrotic, reshaping.

Benefits

It fights cellulite by acting on adipose tissue and dermal structure.

The frequency of treatments depends on the condition of the skin and the desired results. It is recommended to repeat the anti-cellulite protocols at least twice a year.

CELLULITE

WITH THE COLLAGENDEP® SMART CELL ANTI-CELLULITE PROTOCOL YOU CAN FIGHT THE BLEMISHES OF CELLULITE IN 3 SIMPLE STEPS

A simple, unique, and quick ritual for anyone who cares about their health and physical shape and is looking for safe and clinically effective solutions to enhance their appearance and counteract the signs of aging.

COLLAGENDEP® DREN

- COLLAGENDEP® DREN STARTER KIT (Erbozeta® Smart Bottle + 12 Drink Caps)
- COLLAGENDEP® DREN RECHARGE (12 Drink Caps)

TOTAL BODY TREATMENT THAT STIMULATES
MICROCIRCULATION AND PROMOTES THE ELIMINATION
OF EXCESS FLUIDS FOR VISIBLE DRAINING AND TONING
RESULTS

It supports **microcirculatory function** and **fluid drainage, restoring cellular trophism**, and normalizing the structure of the skin and subcutaneous tissue. Collagendep® Dren decongests the hypodermis, preparing it for the lipolytic, anti-fibrotic and restructuring action of Collagendep® Cell.

Collagendep® Dren is formulated with Bromelain from Pineapple, Sweet Clover, and Gotu Kola (Centella Asiatica).

ANTIEDEMATOUS ACTION

BROMELAIN reduces the accumulation of fluids between fat cells in the hypodermis, promoting their reabsorption through the lymphatic system and decongesting adipose tissue.

LYMPHOKINETIC ACTION

SWEET CLOVER activates macrophages, immune system cells, promoting the reabsorption of the exudate typical of lymphedematous tissue.

VASOTONIC ACTION

GOTU KOLA (CENTELLA ASIATICA) strengthens the walls of blood capillaries, reduces edema, improves microcirculation and increases tissue oxygenation.

AVAILABLE IN:

PINEAPPLE FLAVOUR

LEMON FLAVOUR

1 DRINK CAP CONTAINS:

Bromelain 1 g (2,500 GDU*)

Gotu Kola 250 mg

Sweet clover 150 mg

*GDU = Gelatin Digestion Units

Allergen and preservative free. No added sugars.

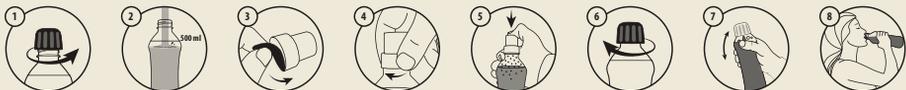

Naturally lactose-free.

It contains only natural colorants: Vitamin B2 and Chlorophyll.

Each Drink Cap provides just 5 kcal: ideal even for ketogenic diets.

HOW TO TAKE IT

Unscrew the black cap and pour 500 ml of water into the Erbozeta® Smart Bottle up to the marked level. Remove the aluminum seal from the Drink Cap and screw it onto the bottle. Press down the top of the Drink Cap until all its contents are released. Remove the Drink Cap and re-seal the bottle with the original cap. Shake well until a homogeneous solution is obtained. Consume within 6 hours from preparation.

CELLULITE

COLLAGENDEP® CELL

COLLAGENDEP® CELL RECHARGE (12 Drink Caps)

TOTAL BODY TREATMENT TO REDUCE THE APPEARANCE OF “ORANGE PEEL” SKIN AND PROMOTE SILHOUETTE RESHAPING

Effectively combats cellulite imperfections by acting simultaneously on the **dermal matrix formation, subcutaneous fat deposits, and connective tissue fibrosis (hardening)**.

Collagendep® Cell contains VERISOL® hydrolyzed collagen peptides and SOD B-Dimpless®, a melon juice concentrate rich in superoxide dismutase (SOD), 100% natural and obtained exclusively from the “Cantaloupe” variety, grown only in the south of France.

LIPOLYTIC

SOD B-DIMPLESS® reduces the size of fat cells in the hypodermis, responsible for the orange peel effect.

ANTIFIBROTIC

SOD B-DIMPLESS® acts on hypodermal fibrosis, a hallmark of the advanced stages of cellulite.

RESHAPING

VERISOL® HYDROLYZED COLLAGEN PEPTIDES restore the dermal structure, reducing *skin waviness*, which is typical of cellulite.

AVAILABLE IN:

PEACH FLAVOUR

ORANGE FLAVOUR

1 DRINK CAP CONTAINS:

VERISOL® hydrolyzed collagen peptides 2.5 g

SOD B-Dimpless® [Superoxide Dismutase from Melon) – 40 mg (480 U*)]

*U = Enzyme Units

Allergen and preservative free.

No added sugars.

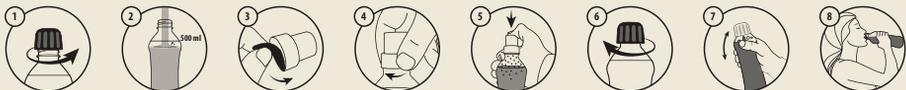

Naturally lactose-free.

It contains only natural colorants: Beetroot red.

Each Drink Cap provides only 10 kcal: ideal even for ketogenic diets.

HOW TO TAKE IT

Unscrew the black cap and pour 500 ml of water into the Erbozeta® Smart Bottle, up to the indicated level. Remove the aluminum seal from the Drink Cap and screw it onto the bottle. Press the top of the Drink Cap until its entire content is released into the bottle. Remove the Drink Cap and re-close the bottle with the original cap. Shake well until a homogeneous solution is obtained. Consume within 6 hours from preparation.

Collagendep: Sun

20 compresse

SUN PROTOCOL

The **Collagendep® Sun Protocol** is designed to meet the specific needs of facial and body skin during periods of increased sun exposure. Thanks to **Verisol® collagen peptides** and **photoimmunoprotective** active ingredients, it protects and repairs the skin from within against **oxidative damage caused by all types of solar radiation**: ultraviolet (UVA and UVB), infrared (IR), and visible light (VIS).

It protects the skin from all types of solar radiation, responsible for cell and collagen damage

It reduces the frequency and severity of **sunburn and erythema**

It controls melanin overproduction and **the appearance of sun spots**

When the skin is exposed to the sun, it is important to protect it not only from **immediate effects** such as **sunburn and erythema**, but also from chronic damage, which is more insidious and progressive, becoming evident over time. One of the main concerns is **photoaging, a degenerative skin process** that, in the long run, compromises the skin's structure and vitality.

Its signs are easily recognizable: **the skin appears thin, dehydrated, lax**, and shows **discoloration** (dark, greyish, or whitish spots) and **deep wrinkles**. But UV rays are not the only culprits of skin aging. **Visible light (VIS) and infrared rays (IR)** also penetrate deep into the skin, contributing to cellular damage.

These types of radiation accelerate **the breakdown of collagen and elastin**, trigger **chronic inflammation, alter DNA**, and activate **destructive enzymes**.

This is why a **protective strategy cannot be limited to the skin's surface**, but must act in depth, using active ingredients that counteract **inflammation** and **oxidative stress**, protect cellular **DNA**, inhibit the degradation of **collagen and elastin**, and stimulate their synthesis.

PHOTOPROTECTION

COLLAGENDEP® SUN

20 TABLETS

SUMMER BEAUTY ROUTINE AGAINST PHOTOAGING FOR
EFFECTIVE PHOTOIMMUNOPROTECTIVE, ANTI-WRINKLE,
AND ANTI-SPOT ACTION

Collagendep® Sun is the summer version of Collagendep® Beauty Cocktail, in which the ratio between collagen peptides and antioxidants is reversed in favor of antioxidants, **to prevent and repair oxidative damage** caused by solar radiation, the main driver of **skin photoaging**.

Also ideal in winter as an oral photoprotector to preserve the skin after aesthetic and surgical procedures, and to help prevent the formation of dark spots.

PHOTOIMMUNO- PROTECTION

POLYPODIUM LEUCOTOMOS

helps prevent both acute effects (erythema) and chronic effects (photoaging, photoimmunosuppression) of photodamage.

ANTIOXIDANT

SILYMARIN PHYTOSOME®

combats chronoaging and photoaging, boosting the skin's natural antioxidant defenses.

ANTI-AGING

VERISOL® COLLAGEN PEPTIDES

stimulate collagen production, preventing its loss caused by UV radiation.

Colorant, preservative and sweetener free.
No added sugars.
Gluten-free.
Naturally lactose-free.

1 TABLET CONTAINS:

VERISOL® hydrolyzed collagen peptides 500 mg
Polypodium leucotomos 250 mg
Silymarin Phytosome® 50 mg

HOW TO TAKE IT

Skin phototypes

1 tablet for skin phototypes 4-5-6
2 tablets for skin phototypes 1-2-3

• For summer beauty routine:

1 tablet a day with water.

• In case of direct sun exposure:

- 2 tablets in a single dose for fair skin phototypes (1, 2, and 3).
- 1 tablet for darker phototypes (4, 5, and 6).
- 2 tablets if exposed during peak sun hours (11:00 AM – 4:00 PM).
- 2 tablets when exposed at high altitudes (above 1,500 m) or near the equator.

WHEN TO TAKE IT

It can be taken throughout the summer. In autumn, it is ideal to start the first cycle of Collagendepi® Beauty Cocktail.

SPRING

WINTER

COSMECEUTICALS

WHERE SCIENCE MEETS AESTHETICS

Cosmeceuticals represent the **convergence of pharmaceutical research and advanced cosmetics**: a perfect synergy between science and beauty.

The Collagendep® cosmeceutical products are rich in **functional active ingredients**, carefully selected to target specific skin blemishes and visibly improve the skin's appearance.

Each formula is designed with a targeted and comprehensive approach, offering concrete and innovative solutions for skin beauty and wellness.

**Functional actives
in synergy**

**Long-lasting,
visible results**

**Sustainable and refillable
packaging**

Collagendep® cosmeceuticals are enclosed in **exclusive packaging** made of **opal glass**, designed to ensure the highest quality and long-term stability of the formulations.

The matte black aluminum coating, featuring a brushed finish and gold detailing, enhances the design, giving the product a refined and timeless elegance.

For a sustainable beauty ritual, Collagendep® also offers the **Smart Refill** format, an innovative system that combines **practicality with eco-consciousness**, created to reduce waste without compromising on quality or sophistication.

The Smart Refill tubes allow you to recharge and reuse the original jar, promoting a more responsible and environmentally friendly approach.

Made without plastic, the tubes are composed of a recycled aluminum alloy: **95% post-consumer and 5% post-industrial**. This is a durable and infinitely reusable material, which retains its properties over time. This virtuous process **transforms waste materials into new resources**, reducing CO₂ emissions and supporting a **circular economy** model.

IS YOUR JAR EMPTY?

With **Smart Refills**, you will just need three simple steps: tear-off, refill, recycle. Prepare the jar: carefully wash the original jar with soap and water, making sure to remove any product residue, and dry it thoroughly.

TEAR-OFF.
REFILL.
RECYCLE.

TEAR-OFF: break the aluminum seal of the Smart Refill.

REFILL: gently squeeze the tube to transfer the product into the jar.

RECYCLE: once emptied, dispose of the Smart Refill in the appropriate recycling bin according to your local waste guidelines. By doing so, the aluminum can be recovered and reused.

BODY TREATMENT

COLLAGENDEP® OSMO-CREAM

JAR 100 ml - SMART REFILL 100 ml

RESHAPING AND TONING BODY TREATMENT WITH PURE ROCK SALT AND A UNIQUE *SKIN FEEL*

A **reshaping and toning** body cream that harnesses the natural osmotic action of rock salt, rich in trace elements and low in iodine, to **effectively eliminate excess fluids** and deeply deliver selected functional ingredients with **smoothing, softening, and firming effects on the skin tissue**.

It is ideal in combination with the Collagendep® Smart Cell anti-cellulite program, to stimulate dermal collagen production, increase firmness and hydration, and **can also be effectively delivered into the dermis during radiofrequency and/or mesotherapy treatments**.

DRAINING

The high concentration of **ROCK SALT** helps release excess fluids from tissues and reactivates the natural fat elimination processes in subcutaneous layers.

TONING

JOJOBA OIL, SWEET ALMOND OIL, AND SHEA BUTTER improve skin elasticity and firmness

RESHAPING

CARNITINE AND CAFFEINE help reduce subcutaneous fat deposits and promote tissue oxygenation.

Natural formulation 90% ingredients of natural origin.

Paraben and petrolatum free.

Nickel, Iodine and dermatologically tested.

Manufactured in a company with **UNI EN ISO 9001** and **22716** certified quality system.

MADE IN ITALY

IT CONTAINS: **Rock Salt, Caffeine, Carnitine, Jojoba Oil, Sweet Almond Oil, Shea Butter**

OLFACTORY SENSATIONS

Top notes of **maritime pine** and **rosemary** blend with **floral and fruity hints**, finished with **ambery base notes** of **vanilla** and **sandalwood**.

HOW TO APPLY

Apply an appropriate amount of cream to the affected areas in the morning and evening, massaging with circular motions until fully absorbed.

WHEN TO APPLY

Thanks to its unique and distinctive texture, due to the high percentage of rock salt, it is suitable for all skin types and any climate or season.
